

Intellectual Power On Demand

More than 120.000 students are working for 2.000+ international and national enterprises – without applications and lengthy interview processes. Mylittlejob makes it possible – based on algorithms and automated quality management.

This is how far we got – with hard work, esprit and creativity. With YOU, we want to go even further! Become a part of the successful and dynamic Mylittlejob-team!

We're hiring: (as of now)

(Junior) Frontend Developer (m/f):

- Improving the existing marketplace platform
- Developing new modules optimizing the platform's usability
- Integrating new modules into the current concept
- Independently providing new and creative solutions to problems
- Flexible collaboration in our young team

What you need to succeed?

- A good knowledge level of frontend languages
- We use HTML5, CSS3, Javascript, AJAX (ideally with jQuery and Bootstrap)
- Basic skills in PHP and SQL are a clear plus but not mandatory
- Ambition and team spirit
- Either fluent in English, basic German desired but not mandatory OR German native

What we offer?

- An innovative team that is fun to work with
- A cooperative atmosphere with flat hierarchies
- Plenty of room for initiative and realization of your own ideas
- Diverse and attractive projects
- A brand-new office close to the Landungsbrücken

Sounds like your dream job? Apply here in English and join the team! personal@mylittlejob.de

We can't wait to see your CV, a short cover letter (max. 300 words) and your desired starting date. You'll hear from us within one week after you applied. Let's go!
